The Transfers in the Army.

The general order issued from the War Department on Thursday, transferring infantry officers to the cavalry and artillery arms of the service, has dashed the hopes of a good many aspiring civilians and ex-volunteer soldiers, who were applicants for appointments to fill vacancies. There has been a scarcity of artillery and cavalry officers, but a superabundance of officers of the infantry arm, caused by the consolidation of their regiments some time ago. All vacancies are now, however, filled by this order.

Ohio State Funds Misappropriated.

The Attorney General and the Secretary of State of Idaho were requested by Secretary Cox, to take his deposition in regard to the case of Blackburn, whois charged with having, as contractor for the State Asylum for Deaf and Dumb, misappropriated the funds of the State.

The French Cable Question.

The full and free conferences between Secretary Fish on the one hand and the French Charge d'Affaires and Mr. Watson, agent of the French Cable Company on the other hand, have apparently resulted in an agreement under which the cable will be landed and put at work. The agents will, this morning or tomorrow file a paper in behalf of the company, pledging it to abide by any conditions Congress may impose, to the end that there may be no prejudice of rights on either side. This is all our Government asks, and all that was embodied in the bill passed last winter by the Senate, and favorably reported to the House, but on paper laid that the results produced are the same each time. In this respect it possesses superiority over all others in the market. Only two teaspoonfuls are required for a quart of flour. For sale by grocers generally. Use Dooley's Baking Powder only. MWF

Personal.

Gen. Sherman left last evening for New York and Boston. Senator Williams left to-night for Oregon.

The McGarrahan Claim.

McGarrahan, when the District Court meets in September, will ask that the mandamus on Secretary Cox be enforced, so that he can get his patent.

Ex-Senator Wade

Has arrived here, and is going to have a talk with the Government officials, and tell them what he thinks of the Pacific Railroad.

The Gaines Murder Case.

In which a negro woman is being tried for killing a white man, was continued yesterday, because one of the jurors was ill. The defense is that of paroxysmal insanity, so successful in the case of Mary Harris here three years ago. Six of the jurors are for and six for acquittal.

The Typographical Union

Here has agreed by a large majority to let the Congressional Printer have twenty apprentices, which is double the present number. There is a general belief that most of the new hands will be colored boys. The case of the colored printer Douglass was put over to next January.

The Weather and Health.

The hot weather of the last week resulted in three deaths here by sunstroke, and several cases of complete prostration. The general health of the city continues remarkably good, considering the weather for the last month.

The Cincinnati Revenue Appointments.

Ex-assessor Megrue, of Cincinnati, during his late visit here, admitted that he endorsed the Smith-Halsted-Delano letter, but insisted that he got it in Cincinnati. As he has been much around the office of the Commissioner of Internal Revenue of late every different interpretation is put upon the fact of his having the letter in his possession. He has lately been recommended for supervisor of Internal Revenue, vice Gen. Young, by Jesse R. Grant, but the President declined to make him such.

The Morris Report on Pacific Railroad,

It seems that there was a debate over the question of receiving the Morris report on the Pacific railroad at all at the Interior Department, on the ground that he had not obeyed his instructions, and that he had entirely exceeded them. The document was furnished by Morris to the newspapers a week before the Interior Department had the official copy.

The Smoothness of the Pacific Track.

Mr. Waters, one of the proprietors of the Boston *Advertiser*, has just returned from California over the Pacific road, and writes in his paper: "It may be said of both roads that, with the exception of perhaps a hundred miles, the entire length is as smooth and true as the track from Boston to Worcester."

WASHINGTON, July 17.

PROF. VASHON ADMITTED TO THE BAR.

In the Criminal Court to-day, A. R. Brown moved for the admission of Professor George E. Vashon to the Bar of the Criminal Court, and Judge Fisher directed his name to be entered. The Judge remarked that the rules required motions for admission to the bar to be made in general term, but as the Supreme Court of the United States had decided in the case of Bradley that the Criminal Court was a separate Court, he would take the responsibility of admitting him. Prof. Vashon is a well-known colored man, who has recently graduated here in New York, has a member of the bar of the United States Supreme Court, and has recently been connected with the Freedmen's Bureau. He is said to be a finished scholar, having filled a professorship in an Allegheny, Pa., College.

INTERNAL REVENUE MATTERS.

The internal revenue receipts to-day were $1,678,000. The Commissioner of Internal Revenue has decided that when a manufacturer purchases second-hand articles and repairs the same and sells them, he should be required to include the sales of such articles in his quarterly return, and pay tax thereon as on sales of new articles.

The Collector of the second Alabama district reports the seizure of forty boxes of tobacco for non payment of taxes.

The Revenue Bureau is to-day in receipt of intelligence of the seizure of a large distillery in New York by revenue officers.

WEEKLY TREASURY STATEMENT.

The amount of fractional currency shipped from the Department during the week amounts to $108,146 to national banks. Fractional currency redeemed and destroyed during the week, $236,000.

Frightful Mortality From Disease.

Fifteen Per Cent. of the Troops Dying Every Month—The Junta of New York Change their Base—Future Expeditions to Sail from a Southern Port.

HAVANA, July 17.—Sickness is increasing in the Spanish and rebel forces, and mortality is frightful. It is estimated that the deaths amount to fifteen per cent. monthly of men in the field on both sides. The Spanish troops are afflicted most with dysentery, and the insurgents suffer from cholera and diarrhœa, caused especially by want and exposure. When the latest army manœuvre is made the volunteers will go into active service in the field, and reinforcements will arrive from Spain.

NEW YORK, July 17.—The report that the captured filibusters were taken to Fort Lafayette was incorrect. They were kept on board the latter thinking, at the direction of Navy Yard, until this evening, when the men were all released and left with fifty cents. Quite a number of them were from Richmond, Va., and have served in the rebel army. It is said no more expeditions will be attempted from this vicinity, the Cuban Junta having decided to make a southern point their destination. A steamer is reported to have sailed for that port, and is then released to-day. Several pistols and thirty-two cartridges also embark on board her for their original destination.

HAVANA, July 16.—Several hundred Remington rifles were shipped from this port yesterday to regain La Grande, Benedicto and Nuevitas, to arm the volunteers about to take the field against the rebels.

FROM PUT-IN-BAY.

Exploration of the Caves—The Men Who Fell Under the Commodore—Perry—The Vineyards—St. Paul's Episcopal Church and its Pastor—Surpassing Beauty of Scenery.

Special Correspondence of Pittsburgh Commercial.

GIBRALTER, PUT-IN-BAY, July 13, 1869.

Dunning rubber coats and caps, looking like a procession of ancient monks, your correspondent with a party of clerical friends, recipients of Jay Cooke's princely hospitality, rowed across the channel which separated Gibralter from Put-in-Bay, and proceeded to explore the "caves" to which posters at the steamers landing call the attention of visitors. Guided by faithful "John" we reached the grounds—an open field—in the midst of which a rude oaken door indicated the place of descent—*facile descensus averni*—and so lighting our torches, we descended. But if the charms of these Islands depended on "The Caves," the steamers would not come crowded with excursion parties as they do now. True, "The Caves" are not what they once were. Once attractive, their very attractions proved their degradation and ruin. Curiosity hunters—Vandals—have stripped them of all their standing wonders and pendant glories—stalagmite and stalactite, leaving merely their rough and wr-nkled bases. We were interested, however, in the subterranean lake of cool, clear, cold water in the remotest recesses of the caves. We made the most of them—drinking from them—throwing stones into them—flaring our torches over them, and listening to John's stories of logs from the lake appearing in these mysterious caverns.

Returning, we stood reverently by a willow on the shore of the bay, which marks the spot where lies the dust of the brave men who fell in battle under the gallant Perry. It is not flattering to our gratitude or patriotism as a people, that no more creditable or appropriate resting place of the gallant fellows. It is true that a handsome monument stands on Gibralter to commemorate the victory, and eventually to bear the names of those who fell in battle. But surely the beautiful limestone of these lovely Islands a monument ought to mark the spot where the dust of the brave repose. Surely the people of the Lake waters in search of relaxation or pleasure do not realize the importance of the victory achieved only eight miles out from the shore in this beautiful bay. Passing among the vineyards which cover these islands and give them their chief commercial importance, it was interesting to be learned that the incessant rains had seriously affected the crop of grapes. *Botrus vinum, amorum humanum ferax*, is that to which the blood has tingled at the touch of the richest clusters of these islands, will surely pardon me—I am in the regret. The injury will not prove so great, however, as was at first supposed.

We worshipped on the Sabbath with the congregation of St. Paul's Church, Put-in-Bay, Rev. S. T. Wilcox, Rector, who has attracted to himself a large congregation of summer visitors, by withdrawing from the Episcopal Church and assuming a position of independence. This is quite a unique feature in the denominational history in that Church, which will, in all probability, long remain the only one of the kind in existence. The sermon was a considerable amount of the Church Catechism, and the prayers were those of the Episcopal Church, with the omission of the responses. The congregation of St. Paul's with no visible bad effects to the cause. The Liturgy of the Episcopal Church in the form of prayer is the growth of ages, and have been dispensed with. The Rev. Mr. Wilcox is a native of Maine, and graduated at Whitestone, preached in the morning. I cannot refrain from speaking in terms of the warmest admiration of the eloquence and ability of the Rector, who is hard-worked clergymen. It is simply pitiful that such a man should be so poorly remunerated. The whole appointment of the building—including the Parsonage, &c., cost at their disposal for three months in the year—this income of beneficence is certainly unfair. It is time the Episcopalians in the country awoke to the fact that the days of the crippled or lackeying clergy are past. Adjutant Wood, of Chittenango, to a draft for five thousand dollars, payable to the order of Rev. Mr. Greenleaf, Methodist minister, at Lee Center. Mitchell and Greenleaf look alike, and the former delivered the draft, of New York, publisher, into identifying him as Greenleaf, in order the draft was payable at the Fourth National Bank of New York. Adjutant Wood and Joseph Brondhead appointed Postmaster, between Jefferson line and Reynoldsville, Star, Warren county, is re-established, and Charles H. Carrappointed Postmaster.

EDUCATIONAL.

Tenth Anniversary of the Lake Erie Female Seminary.

The tenth anniversary of the Lake Erie Female Seminary, located at Painesville, took place last week, and will be gratefully and pleasantly remembered by all who were present. Tuesday was devoted to examinations and compositions, and all the classes acquitted themselves well. Wednesday was devoted to the pleasures of reunion, the seminary being handsomely decorated for the occasion. The Seminary has, previous to this year, graduated in all 81 young ladies; of these 70 reminiscing were present. A class meeting and union. Twenty-five of them have married and are the mothers of twenty children—fourteen boys and six girls. Fifty-two are or have been engaged in teaching, and the remainder, with one exception, an unintruside address of welcome to the young graduates by Rev. Mr. Gilson of Mentor, R. Ferris, of Painesville. At the conclusion appropriate sentiments were read, which were responded to by Rev. B. Lawrence, Esq., Esq., Rev. W. W. Woodworth, Rev. Dr. Wolcott, Rev. B. G. Hayden, and Rev. J. C. Holbrook. An *In Memoriam* was read by Mrs. Flanders, referring to the death of three of the teachers.

On Thursday the graduating class, with invited guests, assembled in the chapel, in the rear of the Seminary, where Rev. D. O. A. Lyon delivered the annual address to the graduates. President H. L. Hitchcock, of Western Reserve college, made the address to the graduating class, and then Miss Lucy Gilbert, assisted by Judge A. Wilcox to these fifteen graduates.

After singing by the young ladies benedictus was pronounced by Rev. W. W. Woodworth, and the procession was re-formed and returned to the Seminary, where a collation was served, and the tenth anniversary was closed.

The friends of the institution will rejoice to learn that about eight thousand dollars—being two-thirds of the sum required—has been provided for—have been subscribed by a few of their many liberal citizens. It is confidently expected that the remaining four thousand will be pledged as soon as the matter can be brought to the attention of the citizens of the Seminary, who have not yet had an opportunity to say what they will give. Should these do so promptly as has those who have already been called on, the debt will be wiped out, and they will have the satisfaction of knowing that they have done a deed that will bless the State, the country and the world for all time to come.

Dr. L. L. Plympton tendered his resignation as a trustee, and the following gentlemen were added to the board: H. L. Hitchcock, D. D., President Western Reserve College; Hon. John Perkins, of Cleveland; Hon. W. H. Upson, of Akron; Hon. T. D. Lyon, L. A. Potter and John Ferry, of Painesville—making the number of trustees twelve instead of seven as heretofore. George A. Nichols is secretary, and Samuel M. L. A. Foster Treasurer.

The next seminary year will commence on Thursday, September 2d, the terms being $50 per year. For catalogue address Mary A. Evans, principal.

THE OIL REGIONS.

Late Strikes on Cow Run, Ohio—The Green Oil Well on the Black Oil Belt.

The Marietta, Ohio, *Register*, of a late date, says: "Within the last few days, numerous wells have been struck at Cow Run, which promise a yield of oil greater than ever before discovered there. The Athey Well, Higgins Well, Mt. Vernon No. 2, and Perkins No. 3, are constantly boiling over, and at times throw oil fifty feet high. At no time in the history of this famous oil region, has there been such excitement and such eagerness to develop new territory. Wells that have yielded one, two and some five years now lie idle and unknown, while the new discoveries are largely augmenting the wealth of the region.

A Shamburg correspondent, speaking of the recent strike at Shamburg for Messrs. O'Hara & McFarland, says: "The striking of green oil in this immediate vicinity, in the midst of black oil wells pumping from the sand and rock, is an occurrence of an unprecedented character, and, naturally, occasions quite a stir among the operators in this locality, as there are a number of wells on the same tract and on the A. Clark farm which were drilled through the same strata of rock and have produced nothing but black oil as yet, though in color it is a trifle greener than that found at Plessasville and West Pithole. That there is an outlet or inlet of green oil found in the Atkinson, Tallman and Sheridan districts through the fifth sand found in this vicinity, there now seems to be no question, nevertheless, until further developments of green oil here transpire, the well mentioned will continue to be a "boss" to operators, and the opinion will still remain that the outlet or inlet of the green oil at Shamburg is confined to a very narrow compass, no established course for it having as yet been found. There are several drilling wells in process of completion in the vicinity of the well mentioned which will now be drilled deeper than was originally intended, and operators here will look with much interest for the result."

GRAND ARMY OF THE REPUBLIC.

The Convention at Altoona on Wednesday.

Delegates from over one hundred Posts of the Grand Army of the Republic met in convention at Altoona on Wednesday, and after the credentials were passed on the department officers were elected for the ensuing year.

The address of Grand Commander O. B. Bosbyshell was particularly fine, and was loudly applauded. He congratulated the Grand Army on the financial strength. He denounced the effort made by partisans to make it a political machine. He called on his comrades to oppose this, and to look to good men, with good principles rather than mere names. He said the great object of the order was to care for the widow and orphan of the fallen comrade to aid the crippled or helpless soldier, and to keep fresh the holy memories of the war, forgetting, as far as possible, the bitterness engendered by the years of strife.

The reports of A. A. Gen. Beach; A. Q. M. Mackey; Gen. J. Gen. Story, and Asst Surgeon General Mitchell, showed that the Order was flourishing, and in a great many States, objects of charity and patriotism.

After the adoption of the reports the Convention adjourned till evening, to take advantage of the special trains so kindly provided by the Pennsylvania Central Company, which was to take them to Cresson. The Altoona Silver Cornet Band accompanied the excursion, and added to the pleasure of the occasion.

In the evening a secret session was held, when, according to instruction from the National Encampment, the ritual was made public. The Grand Army is congratulated on the success of the convention, the good fellowship that prevailed among the members, and the great good it appears to be doing throughout the land.

FROM BROOKVILLE, PA.

Railroad Matters—Jefferson County's Subscription to the Allegheny Valley Railroad—Coal Discoveries—The Crops and the Weather—Politics.

Special Correspondence of Pittsburgh Commercial.

BROOKVILLE, July 16, 1869.

I have on former occasions mentioned a gap in the great low grade route from the East to the West, between Williamsport and the Pittsburgh, Fort Wayne and Chicago Railway. This space is at once to be filled. There is now a line of railroad running from the Pittsburgh and Erie Road to the mouth of Mahoning, via this place, and by autumn the entire line will be under contract, and in a few years this country, which, for the present, is quite out-of-doors, will be one of the greatest manufacturing districts in the State.

C. W. Phillips, President of the Allegheny Valley Railroad, has been here for a few days, and has compromised with the Commissioners of this county, by which the county is to pay fifty-five thousand dollars and be released from all further liability. Many of the citizens are grumbling at this action of the Commissioners of bonding for stock subscribed fifteen years ago, but the fact that the Commissioners have settled the matter, and that the terms are reasonable and confident expectation, though time and time intervened, that the promises of the road would be fulfilled, is the universal opinion of this act as the day of their religious regeneration.

Right Hon. Gathorne Hardy then took the floor. He accepted the appeal made to posterity in regard to the beneficial effects of the bill. He supported Mr. Disraeli's statement that John Bright had used language in the resolution of Parliament to keep the party together and coerce the House of Lords. He considered the Lords as a co-ordinate authority, and that their loyalty had been treated in an unworthy manner.

Mr. Bright denied he had ever used threats of dissolution. His only reference was to the fact that the House might be an expression of popular opinion if the subject of concurrent endowment were referred to the nation. He repelled this unfounded charge which had been brought against him, and which a great majority of the House disbelieved.

After further debate a committee was appointed to draw up a report embodying the views of the House in regard to the amendment proposed by the House of Lords, and the Commons then adjourned.

LONDON, July 17.—It is said that the Lords will accept the most important of the Irish Church bill in regard to concurrent endowment and Ulster grants, but will adhere to the amendments refusing to devote the surplus exclusively to objects connected with the late unavoidable calamity and suffering, as proposed in the original preamble, and deferring the appropriation of the fund.

A Provisional Government for Paraguay

LONDON, July 17.—Advices from Rio Janeiro to the 28th ult. fully confirm the reported victory of the allies over Lopez. The Paraguayans lost one hundred killed and wounded and three prisoners and twelve guns. A treaty establishing a Provisional Government for Paraguay had been consummated.

LONDON, July 18.—Additional advices from Rio Janeiro represents that the allied army in Paraguay, after their recent victory, advanced on Villa Rica, and at last accounts encountered all approaches to the place. President Lopez had declared the Consuls of France and Italy deserters.

Foreigners Denounced in China.

HONG KONG, June 24, *via* LONDON, July 17.—A proclamation denouncing foreigners has been extensively posted in towns and villages on the Yangtsee river by agents of a secret society.

A New Rebellion.

The Pittsburgh Commercial: Monday, July 19, 1869.

The Daily Commercial,

MONDAY, JULY 19, 1869.

LOPEZ, the Dictator of Paraguay, has been decisively defeated by the allied Brazilian and Argentine forces. His deposition from power follows this result, and a Provisional Government has been established for Paraguay, under the protection of the allies. The contest has been a prolonged one, and LOPEZ managed to secure the respect of the world, by his indomitable pluck and energy. The cause of civilization and good government in South America will be advanced by his enforced abandonment of arbitrary power.

THE *World* rebukes the Pennsylvania Democratic State Convention for declaring for the repeal of the ratification of the Fifteenth Amendment, so that it may be submitted to the people. Repeal is right, but submission nonsense, says the *World*. That the Convention, in the estimation of the *World*, made a botch of the thing, is apparent from the following:

The Democracy of Pennsylvania have unnecessarily conceived that the Fifteenth Amendment is a bar before the States for their ratification or rejection, and that three-fourths of the whole number can make it a part of the Constitution. This may perhaps be true; but why should the Democratic party confess and declare it? If at least ability of question, and the friends of State rights should resolve to the benefit of the doubt. Let them repeal legislative ratifications wherever they can, but avoid gratuitous acknowledgements. * * * Within the ensuing year the nine dissent will either succeed or fail. If it succeeds, the question is settled; if it fails, the opposition of the majority to the amendment ceases to be a bar, and closes to be any longer a question of national politics.

THE news from Illinois, Iowa and other western States, in regard to the injurious effects of the heavy rains on wheat and oats, is discouraging in view of the great yield promised a few weeks ago. In some sections of Illinois it is stated the farmers cannot get their harvesting machines into the grain fields, and are obliged to cut what grain is worth cutting by hand. This news will have an influence on the markets, but the crops, unless the disaster will prove much greater than now seems probable, will be fully up to the average. The area planted throughout the Union was larger than usual, and a poor yield in some sections, even of the great grain districts, will not be generally felt, unless there should be an extraordinary demand from Europe for our breadstuffs.

THE Chicago *Republican* lays aside its Protective Tariff principles to propose the retaliatory measure as the only remedy for the present high price of coal resulting, as it avers, by the heartless monopolists of Pennsylvania:

Now for the remedy. And we urge it, retaining, as we still do, the conviction that our manufacturing interests, especially the infant industry of the West, need protection to home industry. It is this. Open the entire Canadian border to the free entry of coal and furnaces their own supply, free of duty, from the Provinces, and by a healthful flooding, force the Pennsylvania mine proprietors into a just and equitable relation to the market. It is a false application of the principle of trade they have combined to distort. The West is the principal sufferer, and wholly at the mercy of men who, if they could, would let the whole country to foreign coal. Give New England mills

FINANCE AND TRADE.

SATURDAY EVENING, July 17, 1869.

The local money market during the past week has fluctuated more than usual. There has really been no pressure upon it from borrowers, but some days the loanable funds at bank were very inadequate to the legitimate demand. It is true, generally, the banks report money easy if the inquiry comes from a party who is not a borrower or a newspaper reporter, but many an applicant for loans, who have just claims for accommodation, are turned away on the plea of a close condition in the market—that is, the line of discount is extended to its utmost stretch, and there must be a halt. As a general thing, however, the paper of well established customers is taken by the respective banks at from 6 to 9 per cent. per annum. Outsiders, who have no claim upon the consideration of the banks, are getting their paper discounted through brokers at the rate of from 10 to 15 per cent. and commission added.

—Since the late unprecedented advances in Government gold bonds, there is a sharp inquiry for the currency sixes, the assumption is that there is fresh dealizing on the former and the large profits and principal are being invested in the United States currency bonds. These have twenty years to run, and in every respect are as safe as the five-twenties, and are selling at from 107½ to 108. They are just the bond to take in lieu of the gold bond, which has been run up by a series of speculative turns, and the wise policy on the former and the large profits and principal are being invested in the United States currency bonds. These have twenty years to run, and in every respect are as safe as the five-twenties, and are selling at from 107½ to 108. They are just the bond to take in lieu of the gold bond, which has been run up by a series of speculative turns, and the wise policy on the part of the present holder will consider if safer to sell than to purchase more of the same kind. The banking firm of Ira B. McVay & Co., who have for the past few years made government bonds a specialty, are now prepared to convert the five-twenty gold bonds into United States currency bonds on the most liberal terms. We refer to their advertisement in this paper on the subject.

—The New York stock market is in its mid-summer dullness, and there is a very meagre attendance at the Stock Exchange. The only feature to the market is the continued advance in New York Central and Hudson. It is said that the two "Vanderbilt stocks" have been advanced to unprecedented figures by anticipations of immense scrip dividends to result from their consolidation as one line, and the enlargement of the combined stock to 400,000 sh. The secret of the agreement to be declared on each as the preliminary to this action lies with the respective directors; but the activity of Hudson River is due in great part to a belief that its capital will at least be doubled. When the plans are thoroughly arranged and the market value of the respective stocks ascertained, the time of the consolidation, after which the control of a less costly parallel through line to Chicago will be brought into play again and the market worked down. Indeed, should the scheme of a consolidated Vanderbilt road between New York and Chicago be consummated, with a capital of one hundred and fifty millions as proposed, it will doubtless lead to the organization of a new company, for a new road capable of being built for seventy-five millions, and would, therefore, make a formidable competitor for the through business of the two cities.

—A case involving an important principle in the sale of property comparatively valueless was decided by the New Jersey Court of Appeals, at Trenton, on the 13th inst. The suit was brought to recover damages resulting from an oil land speculation, in which the defendant was induced to invest upon extravagant representations of the plaintiff. The Court held that where representations of benefit to accrue induced the purchase of property, the entire loss sustained must be made good. Agents who are engaged in the sale of bonds and stocks of incorporated companies, whether they be for producing oil, for mining, for railroads, canals, banks, insurance, or other purpose, projected and under the way and who rely upon many flowery promises as to the value of the works to induce subscriptions, may find it to their profit to hold this decision of the New Jersey Court of Appeals in remembrance. Agents who induce the investment of capital on extravagant promises of return of profits from the investment, are certainly as culpable, and, it is believed, as liable for damages, as the seller as a party who should deceive in selling oil land. He who will make such false representations in the future, which he cannot know to be true, is as criminal as he who asserts a lie to-day, and the Court clearly right in holding them responsible for damages.

Governments, Gold and Railway Stocks purchased for customers on the usual margin.

PITTSBURGH LIVE STOCK MARKET.

PENNSYLVANIA CENTRAL STOCK YARDS, EAST LIBERTY.

SATURDAY EVENING, July 17, 1869.

CATTLE.—The run of cattle this week has been fair, and all sold up to to-day, the supply just about equalling the demand. More good cattle here than last week. The feeling to-day a little bad and prospect for common cattle for next week looks bad. Good cattle brought a fair price and sold quick, while common were dull. Extra 1,200 to 1,500 steers 7½@8c; good to prime 7¼@7½c; common to medium 6@6½c; bulls, stags, and cows 4@6c; stock cattle 4½@6c, and no demand for them. The sales foot up 1,838 head, against 2,315 head last week. The shipments were for the week 1,650 head. Excess of shipments over sales 1,775 head.

HOGS—The sales aggregated 5,699 head, against 5,456 last week. The shipments eastward were 16,271 head, against 9,123 head last week. The run has been fair, with a demand equal to the supply. Prices were without difference in the run this week from last. The lots sold for the most all the week were fair Yorkers at $9@9 25, and choice extra at $9 50@9 75. After part of the market the pens were almost cleaned out.

SHEEP—The run of this kind of stock continued light through the past week at the yards, and receipts not up to the demand, and prices all taken at full prices, and good to prime advanced full ½c from previous week, while extra would readily command ¼c over previous prices if there were any here. Good prime and extra sheep are much in demand in our eastern markets, while common are scarcely be sold at any price, hence good to extra are mostly all bought before they get out of the scluer on the way, while unloading off the cars. We quote sales as follows: Wool sheep, 5½@6c; fair to 6c; a prime; good 5@5½c; fair 4½@5c; prime spring lambs, 7@7½c; common to fair, 6@6½c; culls, 4@5c.

LIME—Sales of white lime at $1 50 ₱ bbl, and Cleveland at $2 25 ₱ bbl.

LIQUR—Trade continues fair and good brands are held firm, but unchanged in price. Low grades dull and nominal. The city Mill prices are as follows: Choice white and Minnesota patent family flour, in bbls, $7 50; in sacks, $7 50 ₱ bbl; choice winter wheat, in bbls, $7 00, in sacks, $7 75 ₱ bbl; choice spring wheat, in bbls, $6 50, in sacks, $6 75 ₱ bbl; good extra and baker's flour, $5 50. PITTSBURGH LIVE STOCK MARKET.

PENNSYLVANIA CENTRAL STOCK YARDS, EAST LIBERTY.

SATURDAY EVENING, July 17, 1869.

CATTLE.—The run of cattle this week has been fair, and all sold up to to-day, the supply just about equalling the demand. More good cattle here than last week. The feeling to-day a little bad and prospect for common cattle for next week looks bad. Good cattle brought a fair price and sold quick, while common were dull. Extra 1,200 to 1,500 steers 7½@8c; good to prime 7¼@7½c; common to medium 6@6½c; bulls, stags, and cows 4@6c; stock cattle 4½@6c, and no demand for them. The sales foot up 1,838 head, against 2,315 head last week. The shipments were for the week 1,650 head. Excess of shipments over sales 1,775 head.

HOGS—The sales aggregated 5,699 head, against 5,456 last week. The shipments eastward were 16,271 head, against 9,123 head last week. The run has been fair, with a demand equal to the supply. After part of the market the pens were almost cleaned out.

SHEEP—The run of this kind of stock continued light through the past week at the yards, and receipts not up to the demand, and prices all taken at full prices, and good to prime advanced full ½c from previous week, while extra would readily command ¼c over previous prices if there were any here. Good prime and extra sheep are much in demand in our eastern markets, while common are scarcely be sold at any price, hence good to extra are mostly all bought before they get out of the scluer on the way, while unloading off the cars. LIME—Sales of white lime at $1 50 ₱ bbl, and Cleveland at $2 25 ₱ bbl.

BUSINESS.

The market during the week was considerably unsettled, with a material decline in prices, particularly so far as relates to the manufactured article, which touched the lowest figure reached for some time, with a large falling off in sales. There was an active inquiry for the raw material, a large amount of which changed hands since the date of our last report, principally for early delivery. There is no use in attempting to disguise the fact, the oil market has been in a very unsatisfactory condition for som timee. This has also been the condition of affairs in the eastern cities.

It is the heaviest yield ever known in that valley. Last year the average per acre was from six-teen to twenty bushels. Corn and oats will follow.

The Titusville *Herald* thinks the oil regions would prove as attractive to summer tourists as any more noted country. It says: The entire oil region abounds in scenes and incidents of historical interest, and even now there are existing many traces of the former residents, buried trees, who not only operated in oil, but, for all that we know, raised hand in the ice simple, grew wealthy by the reason of large royalty, and benefited the country at large, suffered—though their limited advantages for transportation rendered the sale of crude dull and unprofitable.

On Wednesday evening last, the wife of Mr. Joseph Fierst, who lives near Evansburg, Crawford county, poured some oil from a can into the stove to quicken the flames. The oil in the can took fire and exploded, burning Mrs. Fierst terribly, so that she will probably not live. It is surprising people will persist in using this dangerous fluid to start fires, when its use is attended by so many fatal accidents.

Dr. Schoeppe, of Carlisle, convicted of the murder of Miss Steinecke, has written a letter denying that he had requested an expression of opinion from the Medical Society of the District of Columbia, with a view of using it to obtain a commutation of his sentence. He says he would not have his sentence commuted to imprisonment for life, if nothing can save him from the gallows, he will die like a man, conscious of his innocence.

A man named Wagner, employed in Dall's paper mill in Bratton township, Mifflin county, had his arm accidentally caught between two hot rollers about two weeks ago, apparently sustaining but little injury. Several days after he went home, complained of feeling unwell, and died in a few minutes after lying down.

The Clarion *Banner* has been changed to the Clarion *Republican*, and is now edited by F. J. McCoy. The editor assures us that the paper will not be controlled by any clique or faction.

The Clarion County Agricultural Society will hold its annual fair on the 22d, 23d and 24th of September next.

The Clarion *Democrat* says: It is not generally known that Clarion county produces a large proportion of the test fire clay used in Pittsburgh. A great many hands are constantly employed about the mouth of Piney, digging, shaving and loading on boats this material, which exists in large quantities in that region, and at other points in the county.

The Sharon *Herald* makes its appearance this week in a new and handsome dress. Its typographical appearance is much improved, and the small type enables the editors to give a greater variety of reading matter.

Susan Jane Willsey, Postmistress at Jackson Station, Erie county, charged with robbing the mail, has been acquitted by the United States District Court in session at Erie.

At the late commencement of Pennsylvania College, at Gettysburg, the Graff Prize Essay for the best essay on the first part of Bunyan's Pilgrim's Progress, was awarded to E. T. Horn. The Hassler Junior Prize, for proficiency in Latin was awarded to J. A. Himes. The Freshman Prize, for highest scholarship, was given to John Brubaker. E. G. Smyser, of York, and Christopher Graf, of Pittsburgh, were elected Trustees of the College, to fill vacancies.

Carens, Jas. Bigham, John Scott and others, doing much damage to the growing oats, corn and fruit. In Gettysburg the hail was scarcely perceptible.

The girders, &c., are all to be made of iron, which they are now making in their rolling mill.

The cornerstone of the monument to the deceased soldiers of Montgomery county was laid on Saturday last. The monument is to be erected in the center of the public square, Norristown, and will be ready probably for dedication next October.

STATE POLITICS.

The Erie *Dispatch* says: "We sincerely trust the Republicans of Pennsylvania will resolve to break up the 'draw poker' ring which has existed so long in Harrisburg. If they do not manifest a disposition to do so at the coming election they deserve to be badly defeated.

If there are any Douglas Democrats now acting with the Democracy, it may be interesting for them to know that Asa Packer was a delegate to the Charleston National Convention in 1860, from which he bolted and united with the Southern Secessionists, in nominating John C. Breckinridge as the secession candidate to defeat Stephen A. Douglas, the regular Democratic nominee.

The Harrisburg correspondent of the Blair county *Radical* writes as follows: "There is a pretty reliable intimation that Governor Geary, in the event of his re-election, will make a whole new Cabinet deal. Facts and straws go to confirm this. Fact No. 1 is that Brewster is going into Governor Geary's family; straw No. 1 is that Adjutant General McCreary is a candidate for the lower House from Erie; straw No. 2 is the uneasiness of Secretary Jordan's clerks are looking out for jobs. A general reading out of the Cabinet wouldn't be amiss—not that there is anything wrong there, but on the rotation principles."

The Eighth ward, Philadelphia, Democracy held a meeting on Wednesday evening, and adopted the following resolution:

Resolved, That recognizing in the disgraceful conduct of the late city and county conventions held in this city a determination to force upon us by the grossest frauds actions in no honest man can indorse, we feel assured that nothing but an overwhelming defeat at the polls in all the election if we follow the course laid down by them, or indorse their actions by the support of the ticket they have nominated; and we therefore call upon the candidates declared to have been elected to refuse to withdraw, and to unite with us in urging a fair, honest and regular nomination. And we hereby inform them that, shielding themselves in allegiance to our party, and without prejudice or partiality for any candidate, we cannot and will not participate in their suicidal attempt or endeavor to justify the actions of those conventions by voting the ticket they have presented.

CITY MATTERS.

THE KNIFE.

Three Cases of Stabbing.

There were three cases of stabbing brought to the attention of the police yesterday, and two of them it is feared will result fatally.

A HUSBAND STABS HIS WIFE IN THE NECK.

Yesterday afternoon about three o'clock, John McCann, a resident of the Twelfth ward, became involved in quarrel with his wife Catharine, when seizing a butcher knife he struck her a violent blow in the neck, inflicting a deep wound on the right side of the neck from which it is feared she will not recover. Her screams aroused the neighborhood and a large crowd was soon collected and a constable arrested Mr. McCann and took him before Alderman Herron, where an information charging the defendant with felonious assault and battery was made. In default of three thousand dollars bail he was committed to jail to await the result of his wife's injuries. The physician who is attending Mrs. McC. thinks that her recovery is doubtful.

STABBED IN THE BREAST.

A man named Peter Hammil was stabbed in the breast about eleven o'clock Saturday evening near a saloon in the Sixth ward, where the parties were drinking. It appears that Hammil had been out drinking with a man named John Callahan, and in one of saloons a quarrel was commenced and it was apparently amicably settled. But after the parties had another drink, it was renewed, and when they reached the street they soon became engaged in a rough and tumble fight, during which Callahan drew a knife and stabbed the Hammil in the left breast, over the heart, inflicting a severe wound which it is feared will result in the death of the injured man. Hammil was immediately taken to a house near by, and Dr. Arthur summoned. The man was lying in a very dangerous condition yesterday, and his deposition will be taken by the Mayor this morning.

The parties were laborers employed at Mathews's coke oven, in the Sixth ward, and boarded in Le's row. Callahan was arrested at the boarding house shortly after the fight, and was placed in the lock-up to await the result of Hammil's injuries.

MAN STABBED ON LIBERTY STREET.

William Robinson, a colored man employed in the employ of the Keystone Bridge Company, was stabbed in the leg, about half past one o'clock yesterday morning, by some person to him unknown. Robinson was on his way to his home in the Twelfth ward, and, as he was passing along Liberty street, near the Mansion House, he saw a man sitting on a cellar door and was told him it was rather dangerous to sit there, that he was liable to be arrested. The man, who was a stranger to him, then sprang up, drew a knife, struck him a severe blow in the leg that above the knee, ran off and before a policeman could be summoned had escaped. Mr. Robinson says his assailant was a sturdy built man, and wore light clothes and a white hat.

ILLNESS OF DR. MCCANDLESS.—Dr. A. G. McCandless is laying very ill at his residence on centre avenue. He was taken sick some three days ago and is suffering from congestion of the lungs.

NOT THE MAN.—Edward Magee, of the old Ninth ward, desires it stated that he was not the man arrested in Harrisburg on Wednesday last. He says he did not vote Harrisburg on the occasion of the Democratic convention.

HUMBOLDT CENTENNIAL.—A meeting of citizens is to be held at Turner's Hall this evening to take into consideration the celebration of the Humboldt Centennial. The committee appointed at a preliminary meeting will report a programme.

BUILDING AND LOAN ASSOCIATION.—In the Court of Common Pleas on Saturday, a preliminary order for a charter was granted to the Mechanics and Mechanics' Building and Loan Association of Allegheny City.

ELEVEN FAMILIES FLOODED.

Another Break in the Sewer—Narrow Escapes from Drowning—Appeal for Aid.

The heavy and long continued rain on Friday night caused a new break in the old canal or Try street sewer, the debris from the break of Tuesday previous having washed down some distance, and lodging, choked up the sewer. The immense pressure of water forced an opening through the ground on Watson street, in the locality known as "Hardscrabble." In a short time the residents of the vicinity found their houses inundated, and they were compelled to flee for their lives. In some instances, the families had retired for the night, and some of them barely escaped drowning. A row of eleven frame houses was submerged in a few minutes, as the lower stories stood below the level of the sewer. These tenements consisted mainly of two rooms, and were generally occupied by two families—one living up stairs and the other down. In some of the buildings the water was six feet deep in the lower stories, and the household goods were entirely badly damaged or totally destroyed. For half an hour the obstruction in the sewer remained immovable, and the water was spreading over a large area, but rapidly escaping wherever it could find an outlet. The gale in the sewer finally gave way, the overflow ceased, and all the people returned to their homes, the dwellings could once more be entered. They were in horrible condition, however, with mud and slime, and the tenders of them had been floating about promiscuously, presenting most forbidding appearance as far as immediate use was concerned. Clothing, bedding, furniture, &c., were rendered almost useless, and many of the families are left in destitute circumstances. The following is a list of the sufferers: Bridget Cotter, widow; John Hogan, wife and six children; Mrs. Pinkie Dixon, widow and six children; Joseph Spencer and family; Robert Montgomery and family; Mrs. Ferguson, widow; Michael Mullen and family; William Jones and family; James Skelton and family, and John Evanys, the last house being occupied by Mrs. Mary Flinn, a widow with two children. Mrs. Foster and her daughter occupied a lower room, and were saved from drowning by parties above cutting a hole in the upper floor and pulling them up through it. Mr. Hogan had a great difficulty in saving his wife and children. In the haste and confusion, the youngest child, a babe, was forgotten, the other children having been removed. Mr. Hogan supposed that when he carried his wife out, she had the child in her arms. It had been left in bed, however, and was not found for nearly half an hour, when a young man named Carey ventured in and found it standing on the floor, the water being up to the waist. Mrs. Mason also made a narrow escape with her six children, losing nearly all her goods. This woman is husband died about six weeks ago, and she was struggling to support herself and family by sewing. Several new dresses which she was making for other parties, were ruined by the water and mud. There is considerable suffering among these poor but deserving people, and an appeal for aid is made in their behalf. Contributions of money, or donations of clothing and provisions, may be left with Mayor Brush. Let there be a prompt and liberal response to this appeal, that the naked may be clothed and the hungry fed. It is stated that nearly all the clothing belonging to these families was lost, and most of them have not money enough to provide one day's food.

This sewer, which has been the cause of considerable damage, on account of repeated breaks, year after year, was built originally for the Pennsylvania canal, and as the franchises of the State to the canal, vested in the Pennsylvania Railroad Company, the city is disposed to throw the burden of keeping the sewer in repair upon the Railroad Company, while the latter refuses to do so, believing no responsibility in the matter. Some understanding should be arrived at soon, and if the city cannot make the liability of the Company appear, Councils should order the construction of a new sewer. In its present condition it is exceedingly hazardous to both life and property.

COURT PROCEEDINGS.

Sentences on Saturday.

In the Criminal Court on Saturday the following sentences were passed:

Henry Little, convicted of burglary, was sentenced to six months imprisonment in the county jail.

John Law, convicted of receiving stolen goods, was sentenced to one year and eight months in the penitentiary. Thomas Morgan, convicted of larceny, was also sentenced to the same term in that institution.

Henry Simpson, convicted of aggravated assault and battery, was sentenced to pay the costs of prosecution, a fine of $100, and undergo an imprisonment of two years in the Western Penitentiary.

Owen Sullivan, convicted of rescuing a prisoner, was sentenced to pay a fine of $75 and costs.

John Wallicker, convicted of assault and battery, was sentenced to pay a fine of $50 and undergo one year and eight months imprisonment in the county jail.

Singular Case of Housebreaking.

On Saturday forenoon, about half-past ten o'clock, a lady, while sitting at a window in the rear of a building on Federal street, overlooking the rear of the residence of Mr. James Marshall, on Stockton avenue, discovered two men moving about the back yard in a suspicious manner. She knew that Mr. Marshall and his family were out of the city, and at once suspected that the men were thieves. After watching them a few minutes, she was confirmed in her suspicions, as they cautiously approached a side door, removed a pane of glass, and, reaching in, unbolted it, and silently the door through which they both entered. The lady at once informed the first police officer she saw, and he soon summoned, ready to aid in the capture. Chief Bowden and officer Scott soon arrived on the scene, and found the side door open. The whole house was searched, from cellar to garret—every nook and corner examined—closets, wardrobes, etc., looked into; beds, tables, sofas, etc., looked under, and all to no purpose. The thieves made their escape somehow, but *how* is the mystery. The probability is that they got out while the lady was conveying the information to others, and that their intention was to return at night for their plunder.

Bold Burglary in Allegheny—Money and a Watch Stolen.

A bold burglar entered the boarding house of Mr. James Johnson, No. 88 Beaver street, Allegheny City, yesterday morning, between three and four o'clock. The thief went from room to room, obtaining what money he could from the pockets of different boarders, amounting in all to upwards of forty dollars. He also stole a silver watch valued at twenty dollars. One of the boarders named Mr. Cuddz saw the burglar just as he was going down stairs, and gave chase. The thief seeing that he was pursued jumped out of the parlor window, by which it is supposed he entered, and ran off at the top of his speed. The boarder jumped out of the window and gave chase, but the burglar eluded him by dodging suddenly up an alley and disappearing in some one of the houses.

Pittsburgh Firemen.

To the Editor of the Pittsburgh Commercial:

In looking over your invaluable paper, my attention was called to an article headed "Pittsburgh Firemen Abroad," casting severe reflections upon the whole department, though just reflections upon a portion of the Pittsburgh Fire Department, who took a noticeable prominent part in the tournament held at Cleveland last fall. It is well known here that the conduct of the Neptune Fire Company was disgraceful during their stay in Cleveland. Three companies of the Pittsburgh Fire Department have been sent by cities to the East—Duquesne, Vigilant and Eagle—and no one can rest any reflections upon their conduct, either during their trips or acting as engineers. Persons at a distance seeing that extraordinary notice would not know what company to give the credit to. By publishing this you will oblige many firemen.

EAGLE.

Honey Stolen.

About four o'clock Saturday afternoon a young man named Wm. Moore took a box of honey from the grocery of Messrs. Sagemyer & Voskamp. While passing up the street with the honey, a gentleman engaged in a neighboring store, suspecting that he had come by it dishonestly, made an effort to arrest him. Moore seized a stone and hurled it at the gentleman, but fortunately the missile missed the object at which it was aimed. Officer Mulvey, of the Mayor's police, who witnessed the transaction, gave chase to Moore and succeeded in in arresting him. Moore was locked up for a hearing, and the honey was returned to its rightful owner. The prisoner was arrested for a similar offense about three weeks ago.

MORE RAIN.—The heavy rains of Friday night were followed by others Saturday night and Sunday morning. Farmers are seriously interrupted in the work of getting in their hay and wheat, and unless the rain ceases soon, much loss will be sustained. The wheat is still in excellent condition, throughout the country, and a heavy crop will certainly be harvested. The hay crop will suffer some deterioration, a portion of it has already been drenched with rain.

SOLDIERS' HOME.—The monthly report of the Pittsburgh Sanitary Soldiers' Home and Citizens' Hospital for the month of June, 1869, is as follows: Number of inmates in the Home June first, seventy-seven; number admitted during month, thirty-seven; number of deaths during the month, none; number remaining in the Home July first, seventy-two; number remaining in the Home July first, 1868, sixty-nine; citizens admitted, four; discharged, two; remaining, two.

DISORDERLIES.—John Ranager, Patrick Brady and E. R. McGoodin were out on a "lark" Saturday night, and inquired of a person who was a stranger to them the way to a disreputable house. Not getting a satisfactory answer, they knocked the gentleman of whom they were seeking the information down. As a result they were arrested and the next day had to pay into the city treasury the sum of twenty-five dollars and costs each in the morning.

ELECTION OF TEACHERS.—The following teachers have been elected for the Seventh ward School, Allegheny City: Principals—Samuel Campbell, Milton Jones and H. W. Gross; Teachers of German, F. John; Intermediate, Mary E. Metzland; Primary, Mattie J. Brown, E. J. Henderson and M. Ephinstone. There remains one Assistant Principal and one Primary yet to elect.

CART STRUCK BY A LOCOMOTIVE.—About six o'clock Friday evening a carter was driving his vehicle across the railroad track at the Sandusky street crossing, Allegheny, when the cart was struck by the locomotive of the Freeport Accommodation train and shivered to pieces. Fortunately, neither the driver of the cart nor the horse was injured.

NOT A FATAL CASE.—The Norwegian who was picked up on the wharf Friday night in an insensible condition and taken to the lock-up, and subsequently taken to the Homeopathic Hospital, recovered on Saturday morning and walked away. He was supposed when found to be suffering from sunstroke.

STREET CARS DETAINED.—A quantity of stones and earth from Bailey's stone quarry near the Pan Handle Railroad bridge, was washed on the track of the Birmingham Passenger Railway, Friday evening, and the cars were detained for about an hour.

PUGILISTIC.—Daniel Corcoran knocked three men down in the vicinity of the old Fifth ward market house on Saturday evening. For this pugilistic amusement he was fined twenty dollars and costs by Mayor Brush yesterday morning.

ANNUAL FESTIVAL.—The eighth annual festival of St. Peter's Conference Society will be held at Pleasant Valley Park, Allegheny City, on Thursday, July 22d, 1869.

COMMON CASES.—There were thirty common cases before Mayor Brush yesterday morning.

WATCH LOST.—See advertisement elsewhere of a gold watch lost Saturday.
